Rhododendron

are the aristocrats of the plant world. With queenly grace their brilliant blooms rule supreme during the months of May, June, July. Throughout the seasons these stately rich green "Rose-Trees" dominate the landscape. And even when winter comes, Rhododendron still reign, deeply green against the snow.

Delight your gardens, enhance your grounds, with the regal Rhododendron! Plant the Natives along your shady woodland paths, among your trees; the Hybrids in wooded corners or near friendly evergreen trees, where they can enjoy part sunlight, part protection.

NOW is the time to plant the royal Rhododendron!

Rhododendron exercise their queenly right of command. *Do this . . .* they say:

Plant us in places protected from high winds and wintry blasts; sheltered from scorching rays of summer's sun. Give us acid soil, which we adore. Mulch with oak leaves, needles of pine, of spruce and fir. *We will reward you!*

(Andorra's Plant Health Department has developed a special fertilizer for *Rhododendron*. Ask us about it.)

THESE ANDORRA SPECIALS are chosen from our superlative, hardy stock—of the highest quality, *layered*, and not to be confused with the ordinary type of *Rhododendron*. Each group includes Hybrids, Natives, and the rare Dwarfs; early and late blooming.
